PROFILE

BIM student (3rd Year) proficient in React(nextjs). Built responsive web apps and games, Eager to bring strong problem-solving and UI skills to a front-end internship.

PROJECTS

Punya Jewelry/ Jewelry Storefront Website (React, Next.js, Tailwind CSS)

- Built a responsive jewelry website with smooth UI and animations
- Used clean, reusable code for easy updates and scaling
- Made it mobile-friendly and accessible across devices
- GitHub: github.com/aaryanboy/PunyaJewellery

Top Down RPG/ Kaboom.js, Tiled, HTML Canvas, JavaScript

- Built a browser-based 2D RPG with tile maps, collisions, and player movement
- Used Tiled for level design and Kaboom.js for game logic and rendering
- Focused on short gameplay loops, modular code, and optimized performance
- Designed for fun, fast gameplay with keyboard controls and pixel-style visuals
- GitHub: github.com/aaryanboy/jsgame

(prototype)Digital Document Portal/ Next.js, JSX, MongoDB, Supabase

- Built a responsive web app with user authentication and secure data handling
- Used MongoDB to store user data and Supabase for uploading and storing images
- Designed clean UI with reusable components and smooth user experience
- Focused on scalability, form validation, and image access control
